# DIY CLAW LOUVRE SYSTEM

The claw suits our 150mm Louvre Blade.

These can be screwed to anything, or we can provide box section.

They can be fixed off so the blade can run horizontally or vertically.

We space the brackets 50mm to allow for a small overlap, however you can vary the spacing to your liking.

|                        |                             |               |
